

plusadd, Inc. Releases New Digital Music Score Platform "piaScore" and iPad Music Score Viewer.

Many Unique Features Such as Realistic Score View, Wireless Page Turning

Kawasaki, Japan, March 28, 2011 iPad application developer, plusadd, Inc. has announced the release of digital music score platform "piaScore", iPad music score viewer "piaScore HD"(free) and iPhone remote controller "piaScore Air"(free).

A concept of piaScore is "Viewing music scores from everywhere - anywhere, any time". The goal of piaScore is to realize easy music score viewing, sharing style of playing, management daily practice and so on.

"piaScore HD" is iPad application for viewing score, write technique of playing. "piaScore HD" has realistic score viewing that shows score like "real paper". This reduces uncomfortable feeling. Player can turn page easily via wireless and no touch "Air Page Turning" by coordination with iPhone application "piaScoreAir". "piaScore HD" also supports player's PDF files.

plusadd, Inc. plans to develop some function such as auto page turning, recoding, digital music score distribution and propose new music communication.
