

## **plusadd, Inc. Update iPad Music Sheet Viewer “piaScore” ver. 1.3. Supporting YouTube and bookshelf interface**

Kawasaki, Japan, August 10, 2011 iPad application developer, plusadd, Inc. has updated iPad music score viewer "piaScore HD" ver. 1.3.

The new features are supporting YouTube and bookshelf interface. The player can browse music sheet with watching movie on YouTube. It is more enjoyable and useful to study music. A bookshelf interface enables to search more easily.

plusadd, Inc. plans to develop some function such as auto page turning, recoding, digital music score distribution and propose new music communication.

### **About iPad digital sheet music platform “piaScore”**

A concept of piaScore is "Viewing music scores from everywhere - anywhere, any time". The goal of piaScore is to realize easy music score viewing, sharing style of playing, management daily practice and so on.

"piaScore HD" is iPad application for viewing score, write technique of playing. "piaScore HD" has realistic score viewing that shows score like "real paper". This reduces uncomfortable feeling. Player can turn page easily via wireless and no touch "Air Page Turning" by coordination with iPhone application "piaScoreAir". "piaScore HD" also supports player's PDF files.

"piaScore" has earned a Distinguished Honoree medal in Consumer Entertainment/Information in The 2011 International Business Awards.
